### Product Overview

**Lincoln LifeGuarantee® UL (2013)** provides guaranteed life insurance protection through the Coverage Protection Guarantee (CPG). The CPG provides an alternate Coverage Protection Value (CPV) that, if positive, will ensure that the coverage will continue even if the cash surrender value is insufficient to cover charges. The impact of the CPG is reflected in the projection in years where the death benefit remains in force while the cash surrender value is zero.

Note that the length of time the Coverage Protection Guarantee can keep the policy in force may vary based on the following factors:

- Changes in premium frequency, timing or amount. This includes:
  - Premium payments paid more or less frequently than the Planned Premium mode;
  - Premium payments paid later than the month following the Planned Premium due date or earlier than a month before the Planned Premium due date; and
  - Premium payments in lesser or greater amounts than the Planned Premium.
- Policy changes such as loans, partial surrenders, increases or decreases in Specified Amount and the addition or removal of Riders.

You may make additional premium payments to extend the length of the CPG at any time while the policy is in force. However, if the policy lapses longer than 5 years (subject to state variation) and is then reinstated, the CPG will be permanently lost. The CPG includes a Premium Relief Feature such that any premium received during the current policy month is treated as though it was received at the beginning of the policy month for the purpose of calculating the CPG.

**The Guaranteed Values section shows guaranteed death benefit protection through month 1 of policy year 25; please see the Guaranteed Values section of this projection for further clarity.**

**Please refer to your Policy and any riders for more detailed information on your Coverage Protection Guarantee.**

If the policy is still in force at the insured's attained age 121, the CPG terminates, as it is no longer necessary since no further charges are due and the policy is guaranteed to continue in force to the death of the insured. If there is a loan, loan interest will continue to accrue.

### Initial Coverage Information

**Underwriting Class:** Male, Standard Non-Tobacco

This projection assumes an initial underwriting class as shown above. The actual underwriting class will be assigned after the underwriting process is complete. Should the actual underwriting class differ from what is assumed in this projection, including future changes, the premiums and/or values should vary from those contained herein, and a revised projection will be prepared.

### Premiums

#### Premium Timing

We do not credit premiums until received. **Please review the Transaction Summary for the timing of premiums used to create this projection.** If premiums are not received as assumed in this projection, the premium relief feature notwithstanding, this will impact cash surrender values and may impact the length of the Coverage Protection Guarantee. These assumptions are illustrative only and actual policy performance will vary to the extent these assumptions are met. Actual results may be more or less favorable than those shown. **This projection is assuming funds from an external replacement. Please be aware that Lincoln has no control over the timing of receipt of these funds. You should request a revised projection once the amount and timing of external replacement money is verified.**

#### Premium Outlay

You may vary the amount and timing of your planned premium provided the premium outlay is within guidelines set by the Internal Revenue Service (IRS). Please be aware that the timing of premium payments is critical to calculating and monitoring the policy's compliance with IRS guidelines. Premium limits and requirements may change after issue if unscheduled changes are made or if planned changes are made at different times than originally assumed. **Changes to premium mode are never automatic.** Please also note that changing to a more frequent mode (such as Quarterly to Monthly) will cause an increase in the annualized premium requirement in order to provide the same results. Any modal changes should be verified by requesting an inforce projection.

### Glossary of Terms

#### Policy Value

The sum of premiums paid less a premium expense charge, monthly deductions, and withdrawals, plus interest. When prefaced by "net", the value is less loans.

#### Surrender Value

The policy value less surrender charges and loans.

#### Monthly Deductions

Deductions are made every month until the insured's attained age 121, regardless of whether or not premiums are paid. Monthly Deductions include cost of insurance, expense and administrative charges as well as the cost of any additional benefits or riders. Information on these charges can be found within your policy.

This Transaction Summary is to help you understand the timing and amount of policy changes and premiums assumed in this projection. If the actual timing and/or amount of any transaction differs from what is projected, the ending values and benefit periods will most likely be different than currently shown in this projection. Note that most post-issue policy changes are not automatic and must be initiated by the Owner. Other changes such as specified amount increases require additional underwriting and approval. Please note that the requested transactions may have been modified automatically in an effort to comply with contract and regulatory limitations. Scheduled premiums are considered ongoing unless otherwise indicated.

Year	Month	Projected Transactions	Details
1	1	Specified Amount	\$500,000.00
1	1	Underwriting Class	Standard Non-Tobacco
1	5	External 1035 Funds	\$42,291.00
1	5	Scheduled Annual Premium	\$9,590.00
		Includes missed modal premiums due to backdating	
25	1	Scheduled Premium changed	\$0.00

### Impact of Backdating:

The projection reflects the assumption that the effective date of the coverage will be backdated a total of 4 month(s) from actual policy placement (reflecting the sum of the months backdated from the submission date and the estimated time to placement of the policy from submission date). Actual policy performance (including guaranteed performance) will vary to the extent this assumption changes. Scheduled premiums will be shown starting at the next modal due date following the end of the backdated period and will be due on or before all future modal dates unless noted otherwise. This backdating assumption is meant for projection purposes only and actual policy performance (including guaranteed performance) will vary to the extent this assumption changes.

### External Replacement Premium Information:

External replacement premium amounts are assumed to be received as projected in the Transaction Summary, by the first day of the month specified. We do not begin to credit interest on this amount until it is actually received, so if the premium comes in later or is less than projected, the policy will not perform as shown and a revised projection reflecting the actual amount and month received should be discussed with the client.

#### Definition of Life Insurance

The Cash Value Accumulation Test applies to this policy.

**Lincoln Financial Group® affiliates, their distributors, and their respective employees, representatives and/or insurance agents do not provide tax, accounting or legal advice. Clients should consult their own independent advisor as to any tax, accounting or legal statements made herein.**

If this projection provides for premium amount changes in future years, Lincoln offers a feature so that premium changes will be processed automatically. You will receive advance notification of these changes by letter approximately 60 days prior to the policy anniversary date in the year the change is projected. These premium changes do not provide any implied or guaranteed coverage or policy values and it is the responsibility of the owner to review annual statements to ensure the policy is funded as desired.

### Signature Section

I understand that this projection is not a contract and that the terms of the policy constitute the actual agreement of coverage. I have been advised to consult with my own tax advisors regarding the tax effects of the projected policy and also with respect to its valuation. It is my intention to replace existing coverage with the coverage represented by this projection. My insurance agent has explained the advantages and disadvantages of this exchange. I further understand that the guarantees provided by the Coverage Protection Guarantee are directly affected by the amount and timing of premiums paid.

I/We further agree and acknowledge the underwriting class set forth above.

Thank you for your choosing The Lincoln National Life Insurance Company for your life insurance needs.

You have requested that The Lincoln National Life Insurance Company backdate the policy for which you have currently applied for coverage. Please understand that this will result in the payment of premiums for a period in which there is no coverage. The amount of premiums that must be paid depends on the policy date that you have requested on your life insurance application. There are benefits to backdating a policy; there are also premium costs to date coverage to a prior date.

You can discuss those additional premiums with your agent and can also obtain a policy projection that reflects them. You have the right to reject this backdated policy and request a current dated policy.

Thank you again for giving The Lincoln National Life Insurance Company the opportunity to assist you in meeting your insurance needs.
